### WHAT OTHERS ARE SAYING

"We were first timers in Switzerland and on a guided tour. The small  
group and great reviews were what led us to our decision to choose this  
tour, and it was definitely the right choice. Rene and Suzanne were not  
only knowledgeable and efficient, but were also amazing people who  
quickly became friends to all of us in the group.

— Testimonial – Millie DR Rock Hill, SC

Our trip with Echo Trails and Rails certainly ranks up there as one of our  
most memorable trips. The itinerary and pace of daily activities was  
ideal for us. It was such a pleasure having Rene and Suzanne guide us  
to experience the best places in Switzerland. I can't think of anyone  
doing a better job than you two. I will certainly give your tour high marks  
on Trip Advisor and refer to you my friends/acquaintances who wish to  
experience the best of Switzerland.

— E & K - Toronto, CA
